Notes:

There is no city, school, county, or state tax rate limit.

Taxes are due either by September 30 or in two equal installments on September 30 and December 31

Interest and penalty is charged at the rate of 20 percent per year beginning October 1 for annual payment options and beginning January 1 for semi-annual payment options.

Delinquent property taxes are collected by legal action instituted by the City.

The tax sale date is the second Monday in June following the date of the levy.

As the result of a change to State law, all real property will be assessed at 100 percent of value, rather than 40 percent for the tax year beginning July 1, 2001.

Notes

Special assessment bonds are payable from special assessments on properties so benefited and from ad valorem taxes if necessary.

Assessments are levied for the following periods of time:

Water and sewer lines:	20 years
Street construction:	10, 15, and 20 years
Sidewalk construction:	5 and 10 years

Uncollected assessments are received as a result of the property tax sale; consequently, this guarantees virtually 100 percent payment. Assessments which are normally due in July become delinquent the following March 1. Assessment values presented here include interest charges included in the total payments; if the assessments were paid off early, a lesser amount would be received.

Includes general obligation bonds and the Enterprise Fund debt

² The net bonded debt is reduced by the amount of equity in the Debt Service Fund for the purpose of calculating the ratio and per capita figures.

As the result of a change to state law, all real property will be assessed at 100 percent of value, rather than 40 percent for the tax year beginning July 1, 2001.

On September 8, 2003, the City paid off \$14,715,000 of 1993 series general obligation bonds, which were refunded on June 1, 2003. Based upon the above information the restated ratio as of September 8 for adjusted net bonded debt to assessed value is 0.3% and the adjusted net bonded debt per capita would be \$326.

The City issued \$12,350,000 of short-term Bond Anticipation Notes (BAN's) in June 2004 for costs associated with the redevelopment of Town Center. The BAN's should be repaid with developer contributions during FY 2005. Based upon the above information the restated ratio for adjusted net bonded debt to assessed value is 0.4% and the adjusted net bonded debt per capital would be \$523.
